Recommendations

- Only professionals should handle the procedures Eastern Medicine graduates and other allied health sciences.
- Advanced techniques and procedures can be incorporated after submission to the board.

Faculty of Eastern Medicine & Natural Sciences

INTRODUCTION

The inspection was held on Tuesday 3rd November 2020 for affiliation of cupping therapy course.

In the initial phase, the committee members visited the North Campus, Ziauddin University with special emphasis given to the labs and other available facilities highlighting proper functioning of the program.

Later on, meeting started with the introduction of the members. S. Akhtar Ali Shah described different operational procedures of the board encompassing the certificate and diploma programs. He further elaborated the training/technical programs the board caters in which cupping course is included. He convincingly recommended the affiliation of cupping course as specialization in one of the regimental therapies of Eastern Medicine in order to prepare trained professionals in the said field.

The course duration 12 weeks for 3 Months was designed and communicated to the board as per requirement. Prof. Dr. Tasneem Qureshi highlighted that WHO has designed a "WHO Benchmark for the Practice of Cupping Therapy" in 2018 our comments were also included in the working draft requested by Dr Zhang Qi, Coordinator of Traditional, Complementary and Integrative Medicine at WHO. She further clarified that we are going to follow the same pattern, initially basic course will be offered later on, advanced course will be incorporated.

Adnan Qazi Ali endorsed the concept and desired for further collaboration in different aspects with the faculty. He further appreciated the efforts and determination of Dr. Asim Chancellor, Ziauddin University in the field of Health and Education sector.

Meeting was concluded with the recommendations that the cupping course can be publicize and initiated.

Ziauddin University souvenirs were distributed to the inspection committee members at the end of the meeting.

Submitted for information, please.

Regards

Prof. Dr. Tasneem Qureshi
